### WHY CHOOSE ALKOTA

**There is no reason that machines need to be complicated to do their job.**

Our team of engineers and product developers have been designing, building and improving high pressure cleaning systems since 1964. When you buy an **Alkota** pressure washer, you're buying quality and longevity. It is an investment in the future of your business. At **Alkota** we believe that simplicity means quality.

Our machines are built with high quality materials the old-fashioned way, by hand. We design and assemble them right here in the heart of the **USA**, so that you know you're getting an American-built machine.

# MOBILE UNITS SPECIFICATION CHART

## Model 20146

- Single axle
- 100 gallon water capacity
- 15" chrome wheels
- 2" ball receiver
- Diamond plate work surface

## Model 20172

- Tandem axle
- 100 gallon water capacity
- 15" chrome wheels
- 2" ball receiver
- Diamond plate work surface

## Model 20151

- Single axle
- 230 gallon water capacity
- Electric Brakes
- Auto Fill water inlet-automatic shut off
- 2" ball receiver
- High Pressure hose reel with 100 ft. of 3/4" hose
- Swing up wheel jack

## Model 20152C

- Tandem axle
- 460 Gallon water capacity
- Electric Brakes
- Auto fill water inlet - automatic shut off
- High Pressure hose reel with 100 ft. of hose
- Fill hose reel with 100 ft. of 3/4" hose
- Chrome wheels
- 2" ball receiver
- Swing up wheel jack

## Model 20171

- Tubular steel, four sided welded construction
- 330 gallon water capacity value
- Power-coated finish with 3,500 lb leaf spring type axle for superior center of gravity and balance
- DOT approved running lights
- 2" ball receiver
- Swing up wheel jack
- 15" wheels
- Oval steel fenders

## Model 20152

- Tandem axle
- 330 gallon water capacity
- Electric brakes
- Auto fill water - inlet automatic shut off
- High pressure hose reel with 100 ft. of hose
- Fill hose reel with 100 ft. of 3/4" hose
- Chrome Wheels
- 2" ball receiver
- Swing up wheel jack

## FOR BETTER CLEANING

Clean Better with **Alkota Biodegradable** detergents specially formulated for high pressure cleaning.

All pressure washer detergents are blended with sealant to reduce scale buildup in the heating oil, pump and fittings. This improves equipment performance and minimizes replacement and repair cost.
