

OIL FIRED HEATERS

INFRARED HEATER SERIES

CLEAN | QUIET | RADIANT HEAT

NO SMOKE | NO ODOR | DIESEL FIRED

The **SFA150 Infrared Heater** is built tough and made to last. With our Ceramic Fiber Combustion Chamber, you get heat where you want it. The **SFA150** features state of the art High/Low Output control that enables the user to choose between High or Low Output settings for more efficient operation.

SFA150 includes a state of the art advance monitoring system that includes automatic shutdown if unit is tipped or temperature reaches above normal temperatures. The heater will automatically shutdown to prevent malfunction of major components. With the 19 gallon tank the **SFA150** can operate up to 19 hours on Low Output setting or up to 17 hours High Output setting without refueling.

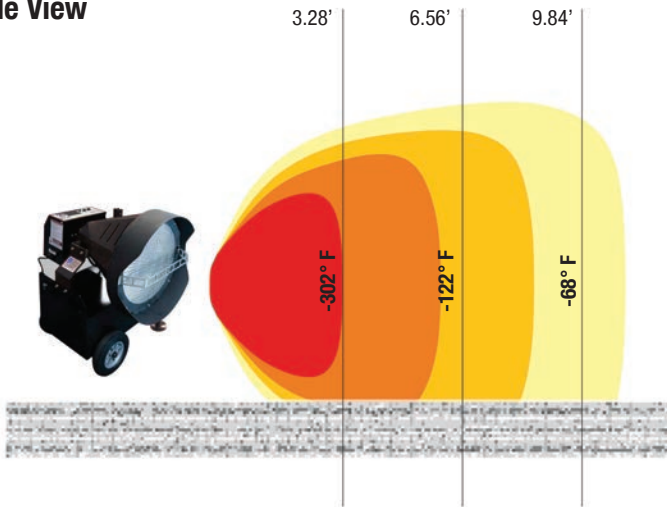

PERFECT FOR HEATING

- Work Shops
- Building Construction
- Sporting Events
- Warehouses
- Emergency Heating
- Farms
- Cattle Ranches
