

COLD WATER PRESSURE WASHER

WASH CANNON

FOR HIGH VOLUME, LOW PRESSURE CLEANING

PERFECT FOR CLEANING

- Construction Equipment
- Mining Equipment
- Quarry Equipment
- Earth Moving Equipment
- Farm Equipment
- Military Vehicles
- Aircraft Rinse Down

WHY CHOOSE ALKOTA

There is no reason that machines need to be complicated to do their job.

Our team of engineers and product developers have been designing, building and improving high pressure cleaning systems since 1964. When you buy an **Alkota** pressure washer, you're buying quality and longevity. It is an investment in the future of your business. At **Alkota** we believe that simplicity means quality.

Our machines are built with high quality materials the old-fashioned way, by hand. We design and assemble them right here in the heart of the **USA**, so that you know you're getting an American-built machine.

WASH CANNON SPECIFICATION CHART

MODEL	25500	25755	25750	2110
Capacity	25 GPM	25 GPM	25 GPM	21 GPM
Pressure	500 PSI	750 PSI	750 PSI	1000 PSI
Motor	10 HP, 230 V, 3 PH	15 HP, 230 V, 3 PH	GX630 Honda Electric Start	15 HP, 230 V, 3 PH
Pump	Diaphragm	Diaphragm	Diaphragm	Plunger
Hose	3/4" x 100'	3/4" x 100'	3/4" x 100'	3/4" x 100'
Wand	Trigger	Trigger	Trigger	Trigger
Drive	Belt	Belt	Belt	Belt
Dimensions	42"x 32"x 32"	42"x 32"x 32"	42"x 32"x 32"	42"x 32"x 32"
Weight	720 lbs	740 lbs	770 lbs	750 lbs

Dissolve Grease, Mud and Dirt with Recirculated Water.

The **Alkota Wash Cannon** delivers high volume of water at low pressure. The **Wash Cannon** is the perfect solution for quickly removing heavy mud and debris from vehicles and equipment. Available with water flow rates up to 25 GP, and pressures up to 750 PSI. These systems make quick work of equipment cleaning.

Ideal for heavy equipment de-muck, construction equipment, mining equipment, quarry equipment, aircraft rinse down, or anything requiring high volume, low pressure flow. The diaphragm pumps are belt driven for quiet operation and will handle solids up to 3/32" in size. This allows for recirculating water. Used as a first stage in the cleaning process, the wash cannon removes mud and dirt so a hot pressure washer can be used to dissolve and remove grease. Suction line hose not included.

Standard Features

- Stationary Construction
- High quality diaphragm pump
- Belt driven design reduces vibration while slow RPM increases pump longevity
- Capable of drawing clean or grey water directly from sump, pit or tank
- Bypass internally or back to water source
- Trigger control gun with hose and variable fan nozzle to control impact
- Low water safety shutoff

Available Options

- 460 V 3Ø
- 50 Hertz Voltage
- Remote
- Autoshtut Down

FOR BETTER CLEANING

Clean Better with **Alkota Biodegradable** detergents specially formulated for high pressure cleaning. This means you get the best results from scale buildup in coil, pump and fittings.

This reduces replacement cost and improves high pressure cleaning.
